AHMAD HELMI IBRAHIM

"Delivering ordinary people's extraordinary dreams"

The Power of LearningClarity frees people to do the right thing.

Helmi's expertise and enthusiasm for managing training & development result in an innovative and dynamic approach to training, ensuring program content is current and relevant to the specific needs of clients. With 15 years of experience in the training industry, Ahmad Helmi brings a wealth of knowledge gained through working with some of Malaysia's and Asia's largest and most prestigious corporations, government agencies and private sectors.

Former General Manager Nota Asia (M) Sdn Bhd a training company with over 12 years of experience. With a humble beginning as a Sales Executive in Nota Asia in 2002, Helmi has proven his capabilities in the Sales area with great achievement of having client accounts more than RM 1 million annually. This enable him to be appointed as the General Manager of the company.

Being the Director for Fusionspace Solutions Sdn Bhd and NQC Technology Sdn Bhd., Helmi ensures that the company are delivering extensive range of courses on Information Technology and Soft Skills.

He believes in the Power of Learning, where clarity frees people to do the right thing. When people understand the process or principles then they will perform to their real capacity. After the training session, they will have the knowledge and confidence to act in ways – discovering cost savings, improving process efficiencies or coordinating day-to-day actions more effectively – that add value to their business.

Beside training and development activities, Helmi also has experience in Application Development project for government agencies and ministry.

NQC Technology is a solutions company providing solutions that maximizes productivity for organizations by harnessing the power of information technology.

We create and provide solutions and programs that enable organizations to increase their competitive edge and deliver results beyond their current performance. It is our dedication to excellence and setting high standards that see our clients soar to a new degree in productivity consistently.

Solutions Services aside, our Business Skills and Information Technology programs are top-class, instructor-led trainings conducted by highly experienced consultants.

If you are looking for a place that integrates IT and Business Skills training with the latest and most innovative training programs, welcome to NQC Technology.

Thus, it is our privilege that NQC Technology is recognized as one of the country's leading skills training providers with the vision of Delivering ordinary people's extraordinary dreams in meeting the ever accelerating demands of the industry.

NQC Technology – Delivering ordinary people's extraordinary dreams

In NQC Technology, everything we do is about delivering ordinary people's extraordinary dreams– for both corporate and individuals. The high pace of change in the world over the last decade has created many new trends. Even though the changes are varied and different across industries, one universal fact remains - competition has increased for both corporate and individuals. However, on the positive side, so have possibilities. And realizing these possibilities starts with the people – people equipped with the right skills and knowledge will be empowered to realize possibilities.

Our services serve to deliver ordinary people's extraordinary dreams for our clients, whether they are corporate or individuals. We help our corporate clients delivering ordinary people's extraordinary dreams for the company by harnessing the power of properly skilled people maximizing the use of technology. We help our individual client empower possibilities by equipping themselves with the best skills to expand their horizons, giving them power to choose the best career path.

As we deliver ordinary people's extraordinary dreams for our clients, we also apply the same principle to our people. Energy has to be created first before it can be transferred. In order to deliver ordinary people's extraordinary dreams for our clients, firstly, we must deliver IT with our staff. Our staff is people who care about people, working in an environment, which encourages learning, open communication, and trust, delivering ordinary peoples extraordinary dreams for you, the organization and our valued clients.

Vision

Delivering ordinary people's extraordinary dreams

Mission

1. To create clarity and help people develop real and lasting knowledge – so they can work more efficiently and productively.
2. We provide specially tailored solutions to turn companies from non-performers to industry leaders.
3. Our approach is simple, usable, highly practical, and fun so that participants learn faster, remember more and achieve maximum results.

Objective

We focus on closing the skill gaps via training. Our training and consultation have help people in building their own successful business.

Value and Ways of being;

- N** - Next Big Thing
- Q** - Quality of Services
- C** - Committed to Excellence

Clarity frees people to do the right thing

An NQC Technology delivery approach leads to those “Aha!” moments: the initiative understanding of business processes or principles. Lack of true understanding is often why people can't perform to their real capacity. After the training session, they will have the knowledge and confidence to act in ways -discovering cost savings, improving process efficiencies or coordinating day-to-day actions more effectively-that add value to your business.

Clearly Ingenious

At the heart of every NQC Technology solution is our methodology; The Power of Learning.

It incorporates relevant hands on activities in the appropriate business context, so people clearly understand the actions they are supposed to take and the reasons for doing so.

Why does The Power of Learning work? Every NQC Technology learning program incorporates five key elements needed to ensure lasting knowledge and make change happen:

Dialogue - Invite people to be a part of the process, simply by starting a dialogue.

We help create discussion around your vision or goals to promote understanding and generate support.

Consistent messages - A clear, consistent messages leaves no room for distortion or misinterpretation. We help identify and communicate the precise message or message you wish to share, creating unity and mutual understanding .

Discovery - People learn by experience - their own. Only then will they remember what they've learned and use it to take the appropriate action.

Visualization - Our solutions help everyone in the organization visualize cause and effect, understand the impact of decision and, ultimately, create their own "mental map" of what needs to happen in order to achieve a desired mission, vision or goals.

Action - Our learning solutions create the timeliness and urgency that mobilizes teams of people - from small groups to several thousand - into action.

First-rate People & Prominent Partnership

We take every opportunity very personally. Every client is important to us and we want to be part of your success. We believe in throwing ourselves into challenges that push us to be even more innovative and empowering ourselves professionally, to be distinguished in the marketplace, to meet, if not exceed, our investors' expectations.

Understanding Our Core Business Operations

Our core service is to provide training and building of skills for IT and Business, as well as Solutions Services that no government statutory bodies or other organizations can do without.

We have grown to adapt to meet the expectations and demands of industries, workforce and social groups.

Today, NQC's business operations are diverse and organized into 3 domains:

- Information Technology
- Business Skills
- Solution Services.

Information Technology

We would love to show you our entire portfolio of IT related programs that focus on optimizing clients operation needs and demands while implementing trouble-free technology that develops the knowledge and skills of the industry's workforce.

Basic application, design and multimedia, advanced technical networking, programming and security skills, you name it. We have a wide range of certification programs from Microsoft, Cisco, Adobe, Autodesk, Comptia and ITIL .

Can't find your favored software developer on the list? No worries, this is just the tip of the iceberg.

Business Skills

We want to help improve our clients' way of doing business. In fact, we run business programs that are delivered using contemporary, yet time proven training methods that effectively improvise every aspect of a business, be it managing strategies or customer relations.

Our consultants offer specific business expertise to help our clients realize the results in every aspect of business processes. Here's where you come in: we will be working closely with you, together, we will discover the solutions to your business problems, however complex it may be.

The most frequent requested programs by our clients are:

- Business Improvement
- Change Management
- Coaching & Mentoring
- Human Resource
- Communication Skills
- Sales & Marketing
- Finance

Harnessing the power of information technology as a strategic asset

NQC's solutions team was set up to provide high quality cost-effective solutions. As a professional IT training provider, NQC Technology has a huge source of invaluable knowledge resource from its team of trainers and consultants. These people are products experts and the range of products knowledge is immense once combined. NQC employs this pool of extensive and in-depth expertise to supports our clients' technology requirements. Through the ongoing delivery and integration of strategic technology capabilities, we help our clients improve their competitive position. Harnessing technology as a strategic asset allows companies to continually improve the delivery of products and services to their customers.

All of NQC's solutions services offerings are completely flexible. We customize our approach to each company and engagement, either assuming full responsibility, share the responsibility with the customer, or just providing the resources required using a just-in-time approach. NQC's specialty in solutions services include:

1. Human Resource Solutions

a. Training Needs Analysis

Our training needs analysis is a unique and powerful tool in Identification of training requirements through skill sets at multiple levels. It enables ease in creating, planning and strategizing training needs, which includes budget allocation system and a report system that outlays the results of trained candidates.

b. Total Compensation Strategy Review

- Develop a comprehensive compensation plan for client based upon an objective analysis and evaluation of job content. Such compensation plan must provide internal equity and yet to be competitive in the industry in attracting and retaining qualified employees
- Develop a reward strategy philosophy and strategy that will serve as a foundation of all reward programs
- Establishment of new compensation framework
- Assess the need for revision of client current salary structure and allowance harmonization
- Recommend implementation strategies including calculating the cost of implementations
- Establish current short term incentive plan which will drive the performance culture

Successful *EMPLOYER* outcomes

- Builds workforce **capability** to support business model
- Strengthens **employment brand** for attracting and retaining talent
- Increases the **return on reward investments**
- Balances the need for **consistency and governance** while supporting organizational flexibility

Successful *EMPLOYEE* outcomes

- Rewards are **marketplace competitive**
- **Growth opportunities** and future here are known
- Communicates company's **values, goals, priorities and direction** while reinforcing the message with rewards in line with the company's priorities and direction
- Recognizes and differentiates the **"right" performance**, and reflected in my pay and growth
- Identifies the **value of career** along with current pay and benefits
- Creates a unique and differentiated **employment value proposition/brand**

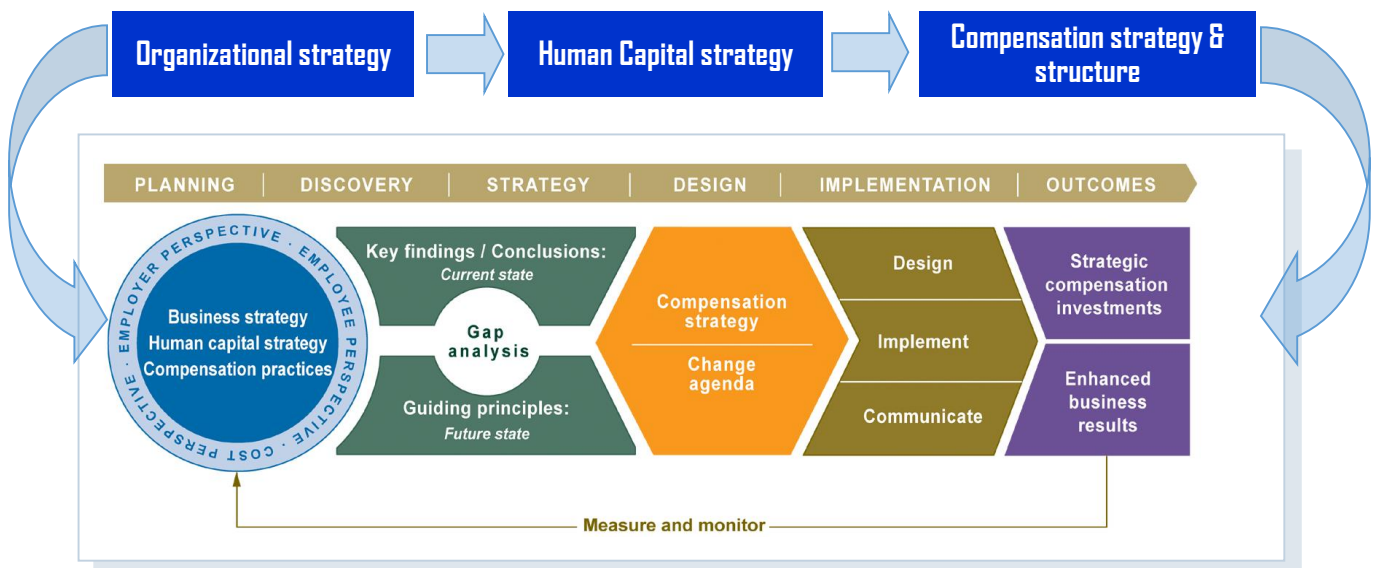

Successful *COST* outcomes

- **Affordable and sustainable costs**
- **Predictable** costs and cash flow
- Costs are **in line** with **competitors**
- Appropriate balance between **pay and performance**

Linking strategy to compensation design

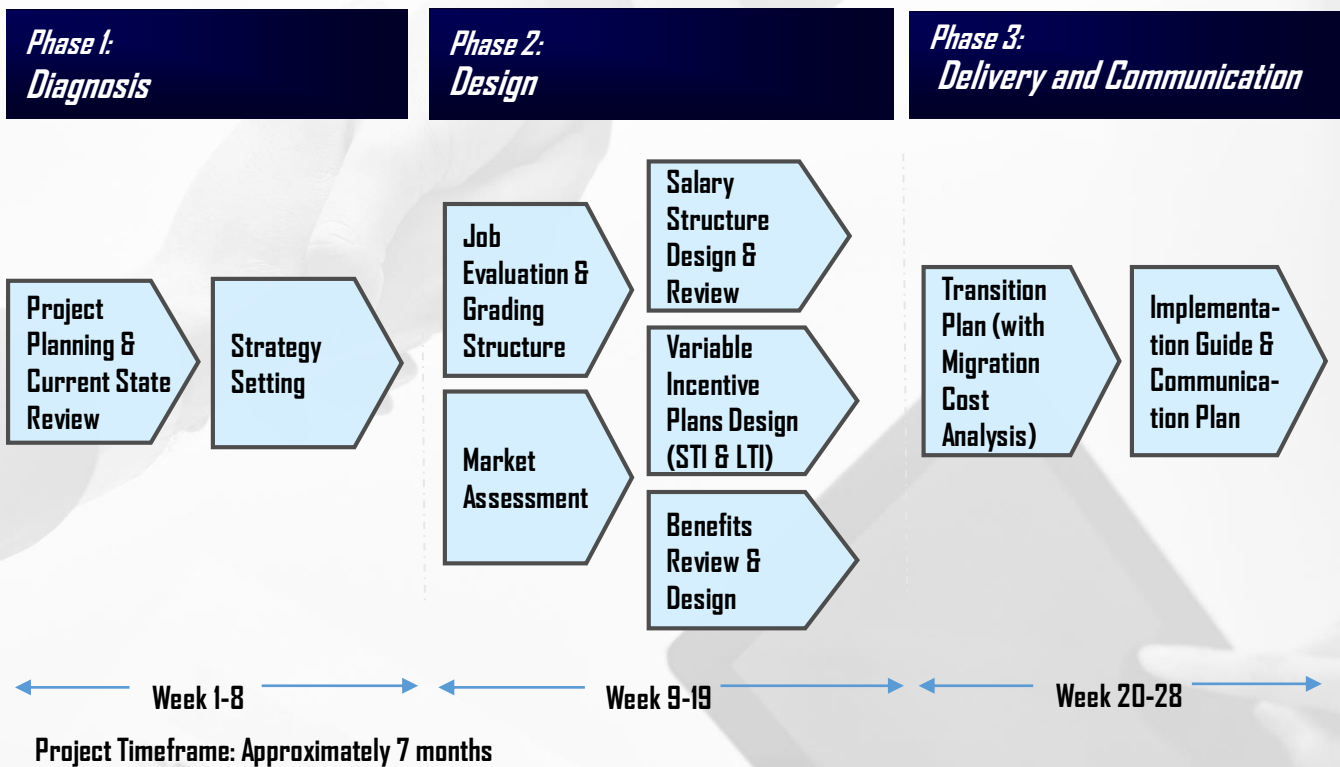

Our approach to compensation consulting engagements stems from a "total compensation" perspective, including evaluating the competitiveness of base salary, short and long-term incentives and benefits, where appropriate.

Our point of view is that total compensation should align with organization's mission, values and business goals. Emphasis is also placed on the consideration of "key stakeholders" in establishing an organization's compensation philosophy.

Overview of Proposed Project Approach And Deliverables

Objective: Develop total rewards strategy to ensure alignment with business strategy, competitiveness with market and fair pay for performance

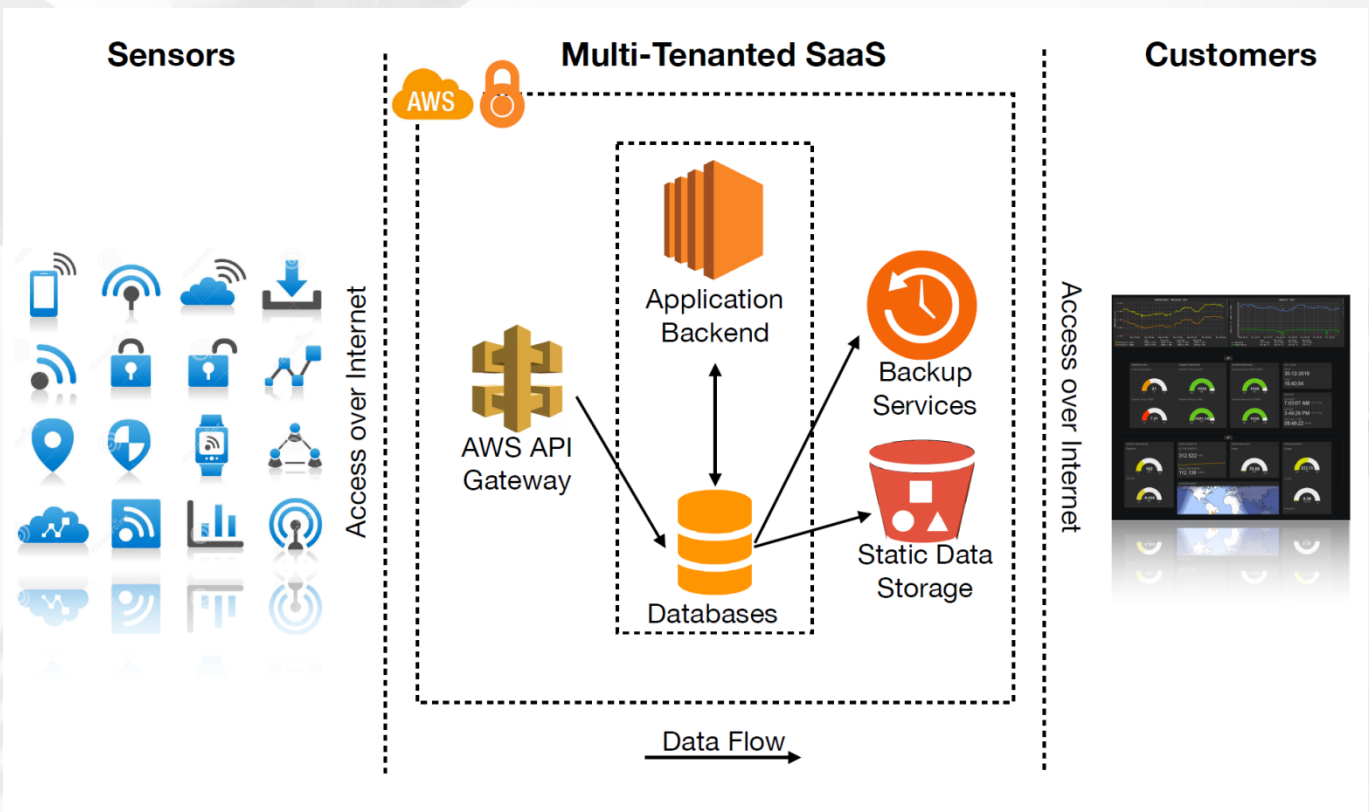

2. Corporate Video & Photography

3. Deployment & Cloud Configuration Services

- a. Azure AD Connect Synchronization
- b. Office 365 pro plus deployment for up to 20 desktops using ODT
- c. AWS (Amazon Web Services)

4. Cloud IoT Dashboard Architecture

WHAT WE OFFER TO OUR CLIENTS

What We Offer To Our Clients

We look forward to opening up new doors and building a sustainable relationship with you. Yes, you.

We are ready to be committed to you, to stick by you during challenging times, to play a significant role in your business lifetime.

Are you up for a long term partnership with us?

Customized Contents

NQC Technology offers the flexibility to customize a program according to your preference and requirements. Like how each individual has a unique curve, we understand every business have different needs.

Think of us as your personal trainer who will customize a relevant training program to suit your organizational body, and budget.

Training Needs Analysis

We will work together to discovering the areas that require improvements by determining the cause factors.

By identifying the participants' strengths and weaknesses, we are able to focus on developing the right skills to meet your business objectives.

Blended Learning

One of the major concerns our clients have is the time factor. We also try our best to meet other concerns such as timing, transportation, modules, study environment etc. The good news is, we hear you.

NQC's Blended Learning is the most flexible solution, designed to suit clients' diverse learning requirements; offering instructor-led training, consulting, on-the-job coaching or a combination in accordance to clients' preference.

Accessing Our Participant's Progress

We will run pre and post assessments to determine the effectiveness of our training. Employers are able to monitor participants' progress, and decide on the next course of action based on these assessments.

Let Us Come To You

Can't come to us? Not a problem.

Our program can be delivered outside of NQC's premises according to our client's preferences.

Flexible Schedules

Our clients have a wide choice of class schedules available every day, inclusive of weekends and evenings.

Accessible Locations

Choose between our two training facilities located in Kuala Lumpur and Petaling Jaya. Or opt for us to come to your office instead. Whichever works for you, works for us.
